Annual Report 2020-2021

MANDAVA INSTITUTE OF ENGINEERING & TECHNOLOGY

MIET was established in 2007 with the aim to provide and promote quality higher education and research on par with international standards and to train young men and women able and eager to create and put into action ideas, methods techniques and information. It persistently seeks and adopts innovative methods to improve the quality of higher education. MIET is committed to the highest standards of academic excellence, inculcating learning skills, creativity, teamwork and leadership. The world class facilities – computing, laboratory and other educational and recreational facilities, library etc., aid and enrich the process of learning.

The unique system of education helps students to get the hands on experience in solving real life problems during their educational years. The academic flexibilities are complemented by a breadth of activities outside the classroom. Every student finds exhaustive opportunities to participate in and contribute to a variety of co-curricular and extra-curricular activities.

We lay emphasis on well-rounded personality development of the students and also in schooling the values of teamwork and integrity in them. We strive to develop each mietian to work with all vigor and values for the betterment of humankind and train them for lifelong learning. I always advise my students to make best use of the opportunity and challenge them to aim high and contribute to the enrichment of academic environment today, and later to lead professions so that they effectively contribute to the improvement of society; I encourage our faculty to continue providing a stellar professional education and exploring innovative venues for research and creative inquiry.

Vision

To Serve The Nation By Nurturing And Developing Professional Technocrats And Managers Who Would Contribute To Nation Building.

Mission

To establish a unique centre for the promotion of technical education of quality standards leading to result oriented research in various fields, to sustain existing and future technological innovations towards socio-economic development.
